

How to Create a Vision Board

Today I am going to be telling you how to make a **VISION BOARD**.

My first time making one of these was about 3 years ago. It's become a tradition in my friend group that on New Year's Eve, we all gather and make a vision board together.

So I'm sure you are thinking "Bree what is a vision board?!"

WELL, since you asked, it is a board or poster that displays all of your goals that you have for the future. These goals can be short term or long term.

There are really **no rules** to this because it is **all about YOU!**

Let's get started! I hope you brought your craft supplies with you today.
